

WL GR/GU ADAPTER

The RMZ GU Adapter converts the standard shear-down GS Pulling Tool and Heavy-Duty GS Pulling Tool into a shear-up release.

To convert the GS Pulling Tools into a shear-up tool, remove the shear pin from the GS Tool and screw on the GU Adapter. The shear pin is then inserted into the GU Adapter.

Application

- Used where Shear down force is not feasible/desired.

Features & Benefits

- Available for all standard fish neck.
- Tools for sour service (H2S) available upon customer request.

WL GR/GU ADAPTER
