

LIFTING CLAMP

The RMZ Lifting Clamps are manufactured and supplied for a wide range of sizes suitable for lifting lubricators and surfaces pressure control equipment in a safe and controlled manner.

Features:

- Simple and robust design.
- Come with load tested certificate.
- Welding as per AWS.
- Shackle, slings come with individual load test certificate.
- Proof load is 1.5 times SWL is minimum design load factor.

Benefits:

- Standardized shackles ensure interchangeability and reduce inventory.

Options:

- Available to meet DNV, BSEN & API 17D standards requirement.
- Customizable to meet customer requirement.

Technical details for equipment ordering:

- OD (or) Pressure rating & ID of equipment.
- Clamp Length.
- Load Rating
- Sling Length.
- Standard
